<b>Abstract:</b>	<p>About the Museum: The museum's mission is to collect, preserve and interpret the medical and cultural artifacts of the Carville Historic District and to promote the understanding, identification and treatment of Hansen's Disease (leprosy) by creating and maintaining museum displays, traveling exhibits, publications and a Web site in order to educate and inform the public. The vision of the National Hansen's Disease Museum is to support the National Hansen's Disease Programs in its effort to enhance the publics' understanding of the history, treatment and rehabilitation of leprosy in the United States, and to commemorate those who lived at the national leprosarium as patients, as well as the health care professionals who made medical history as they battled leprosy. Researchers must register in advance. With approval, some copying may be performed on site by staff.</p>
<b>Holdings:</b>	<p>Collections: Photographs created by amateur and professional photographers, medical personnel and the Daughters of Charity. Subjects include: The hospital grounds and buildings patients' recreation and organizations holidays, religious services, veterans' organizations, Daughters of Charity, Public Health Service, patients' housing, medical treatment. Also see "The Carville Collection" in the Centers for Disease Control and Prevention Public Health Image Library. Keyword search: Carville / leprosarium / leprosy.
